Makeup Spring Trends

This season is all about complexion perfection and sheer lips. Spring is a cheerful time and so are the lip and cheek colors – rose, red, coral and peach. I have twenty NEW lipstick colors and textures. The new technology allows long-lasting coverage while being sheer and moisturizing.

MOSAIC blush is back. I have beautiful rose bouquet blushes in cool and warm tones. They are extremely versatile working on all skin tones. Wear alone or over cream blush for staying power.

To create the perfect complexion, my custom foundation and tinted moisturizers are fabulous and allow full or sheer coverage. The eyes need to be defined to balance the lip and cheek. My gel eyeliners come in nine long-lasting and beautiful colors. Add brighter eye shadows in light, medium and dark colors that are the most finely milled powders available.

Make an appointment to experience a beautiful face with the knowledge on how to apply the look.

**20% Off One Product

“I get depressed when I look at my wardrobe.”

I cannot tell you how many times that I hear this from clients. People from of all ages and all walks of life struggle with the same thing. Today a woman called because she was tired of her wardrobe. Her closet is filled with items that she either does not like or is decades old. After wearing the questionable clothing several times she feels like something is not working, but isn't sure why. Her closet is full of clothes, but when she tries to put together a “cute” outfit, nothing looks good.

Most people tell me, “I do not know where to start.”

Does this sound familiar? Are you saying the same thing to yourself?

Clothing selection and styling outfits are not taught in any classroom. Society says that you are supposed to innately know how to look fabulous every day.

Do not despair; you are not a failure because you were not born a stylist. There is a solution to the problem. It is called knowledge! I can teach you critical information so that you can be a wise shopper and not buy mistakes.

My expertise is in teaching you the best colors, designs of clothing, accessories, and cosmetics that will make you look your best. When you go shopping you will immediately know whether an item of clothing, accessory or cosmetic will look great on you.

Whether you are 20 or 80 years old, I highly recommend that you quit throwing away money on mistakes and opt for a lesson to learn your best choices for looking fabulous. Then you will love your wardrobe and love the way you feel when you get dressed.

Stoltzimage Online Store

Many of you have asked what happened to our online store. I was having so many problems with our old store that I made the decision to move my online store to a better

platform that would be more user friendly. Unfortunately, it has been a much longer project than I had anticipated.

It is still in the works and hopefully will be up and running in the next month. I apologize for the inconvenience and ask you to be patient. Once it is back online, I hope you enjoy using it.

NEW: Anti-aging Skin Care

Stoltzimage professional grade skin care is getting fabulous reviews and has added a new Bio-Peptide Toner and Bio-Peptide Night Cream. I personally use all of it.

In the morning I cleanse with Micro-derm Cleanser; tone with Bio-peptide Toner; apply Bio-peptide Concentrate serum followed by Face Firming Complex. Finally I apply Peptide Protection SPF 30. I use Anti-puffiness Eye Gelee around my eyes and Lip Treatment to moisturize my lips.

At night I cleanse with the same cleanser and toner, but I then alternate Retinal Mask and the new Bio-Peptide Night Cream. Lastly I apply the Peptide Eye Cream around my eyes and Lip Treatment on Lips.

My face is evidence that the skin care is working.
